Vets4IT

Blue Horizon Tek (BHT) has deep skilled resources and specialized experience in the Veteran Employment arena. Working with the **Pentagon, Army/Marine for Life and the American Legion**, our staffing professionals work with strategic partners to identify and transition exiting/recently transitioned military into technology projects/positions that launch careers for men and women who volunteered their services to our country.

BHT works with your technology leaders to match tech savvy vets into value add roles within your organization (Contract or Full Time). Whether it be **Project Managers, Business Analysts, QA, Cyber/Infrastructure, Desktop Support etc.**, a Vet knows what a deliverable is. They know what a timeline is and how to perform with discipline.

Why Hire A Vet?

Integrity Under Pressure

Focus on task/ do what it takes in hostile environment

Accountability

Trained NOT to point fingers and blame others

Respectfulness

Demeanor and attitude achieve positive outcomes

Leadership

Understand how to take orders or take the lead

Team Work/ Collaborative

Know what it takes to work together

Positive Thinkers

Resourceful and committed to positive outcomes

Our government spends tens of thousands of dollars on IT training and hundreds of hours on IT military personnel
